Course Description: Kindergarteners will attend Art once weekly. Each week they will experience an environment that will develop an appreciation for the art around them and learn about various artists, along with art terms and concepts. As we review different mediums and styles, they will develop their own creativity and appreciate other classmates' freedom of art expression as well. What your child creates will be a reflection of his/her own interests, skills, developmental age, imagination, or classroom observations. My goal in this class is to expose the children to many art concepts, and styles, as well as help them learn to use various mediums of art materials. I am looking forward to a "FUN-FILLED" learning environment that will create a life-long passion for art.
